Artificial Human Eyes,

Adjusted without pain, by Dr. Spencer, Dentist, 254 Penn street.

Hernia or Rupture.

It will be observed that we have published for some time past an advertisement of Dr. George H. Keyser, of 140 Wood street, Pittsburgh, Pa., in reference to Trusses and other mechanical appliances for the cure and relief of hernia and rupture, besides various broken down conditions of the human body which are usually beyond the reach of medication. Dr. Keyser has given this branch of the business great attention for several years past, and we think we are justified in saying that he comprehends it thoroughly. You can get at his store, Shoulder Braces for weak breasts, Elastic Stockings for varicose veins, Pile Props for the cure of Piles, and, in fact, every variety of mechanical appliance. Dr. Keyser is the inventor of a Truss for the radical cure of Hernia or Rupture, so perfect in its parts and so comfortable to the wearer, as to elicit the admiration of all who may need such an appliance.

He would respectfully solicit the attention of all those who have been unable to get relief from other sources to call and see his great improvements in that department of mechanical surgery,

He has recently been in communication with some of the ablest and most experienced truss surgeons in the United States, and feels satisfied that all those who have been plagued or annoyed with ill-fitting and uncomfortable trusses, can be accommodated by calling at his consulting rooms, No. 120 Penn street, or at his Medicine and Truss Depot, No. 140 Wood street. Office hours from eight to eleven A. M., and one to four P. M.

Fourth—If your breast pains you, and you hawk up more phlegm than usual, take Dr. Keyser's Pectoral Syrup.

Fifth—If out sleighing, and get upset and catch cold, remove the obstructions at once by Dr. Keyser's Pectoral Syrup.

Sixth—If you expectorate blood, take Dr. Keyser's Pectoral Syrup.

Seventh—If you have wheezing and bronchial irritation, take Dr. Keyser's Pectoral Syrup.

Several propositions to amend this were made and rejected. In the course of some remarks, Mr. WILSON said he wished to remain here to settle the question of suffrage all through the country.

MEETING OF THE SUPREME COURT.

WASHINGTON, March 29, 1867.

TO CLOSE UP BUSINESS.

Both Houses of Congress will meet at ten o'clock to-morrow, in order to close up the business by noon, at which time a recess will be taken till July.

SUPREME COURT MARSHAL.

There seems to be no doubt that the Supreme Court, which resumes its session next Monday, will appoint R. C. Parsons, of Cleveland, Marshal of the Court, under the law recently passed.

MASSACHUSETTS MARSHAL.

The President has nominated to the Senate General Wains, of Massachusetts, as Marshal of that State.

THE IMPEACHMENT.

In the debate in the House Mr. Woodbridge alluded to a former remark of Mr. Blaine, that the action of the Judiciary Committee on the impeachment was generally considered a farce, saying that the Committee had made an arrangement if the House adjourned now to come together about the 1st of May and continue the investigation. It was to be hoped by everybody that nothing would appear that would render it necessary to impeach the President, but if a state of facts should appear that would render it proper, the Judiciary Committee would not shrink from the responsibility, but would recommend a bill of impeachment. That was a duty which the members of that Committee did not seek, a duty which they would be very willing to be rid of, but they would cordially and fairly, and without prejudice, examine the question and report the convictions of their deliberate judgment.

Mr. Fernando Wood made some remarks against impeachment, for which he said there was not a shadow of proof.

Mr. Butler supported the idea of impeachment, stating that an important point of evidence had been laid before that Committee. The President had, for political reasons alone, pardoned one hundred and ninety-three deserters from a West Virginia regiment, in order that they might vote for a Democratic candidate for Congress. He himself supplied the testimony, he added. The result of this pardon of a batch of deserters was to entitle them to claims to the amount of $75,000, which would otherwise have been forfeited to the National Asylum for Soldiers. He also stated that Colonel B. Florence had received one thousand dollars for his service as intermediator in that matter.

Mr. Marshall said it was proper to speak of what had occurred in Committee, but if all the facts could be laid before it, the statements of Mr. Butler were unauthorized and brought before the House in a manner improper and discreditable.

Brevet Major Gen. A. McCook, of the 26th Infantry, has been relieved of his present duty and ordered to join his regiment.

INDIAN NEGOTIATIONS.

Mr. Bogy, late Commissioner of Indian Affairs, acting for the Government, has recently had important interviews with the Yancton, Sioux, Winnebago, and Omaha tribes of Indians, having in view further provision for their comfort and welfare, without cost to the Government beyond the present appropriation for those tribes under treaty stipulations. A favorite idea is to provide for them out of this fund a sufficient quantity of cutlery so that they may begin to raise stock and abandon the chase. The Indians, it is thought, will adopt this mode of life very readily, and as the trial can be made without any expense to the government it is deemed worthy of being put in practical operation.

NOMINATIONS CONFIRMED.

The Senate to-day confirmed as Assessor of Internal Revenue, Richardson L. Wright, Fifth District, Illinois; Collector of Internal Revenue, M. M. Kellog, Fifth District Illinois; Surgeon General, R. Laffon, of Nevada.

An Improvement in Taking Pictures.

The old fashioned iron braces in which a person's head was squeezed in order to steady his body while a photograph was being taken, have caused thousands to turn away from their purpose of having pictures taken. The wonder was that inventive genius was not directed towards improvement in rests, and at this late date in the history of the art of photography an invention has been brought out which will meet universal favor. We yesterday had the pleasure of examining, at the popular and elegant art gallery of our friend B. L. H. Dabbs, Esq., No. 26 St. Clair street, the famous Sarony Resting Machine, a late invention. It is a complicated piece of machinery, so constructed as to render any position which the human body is capable of taking one of perfect ease and composure. The body rests, by aid of this machine, in graceful attitudes, and of course the photograph must be much better and truer to nature than those taken by the aid of the old standard. Mr. Dabbs has also introduced a patent chair upon which children are seated previous to having negatives taken. The little ones are made comfortable by cushions which may be adjusted to the back and the head, and thus natural positions are assumed. Mr. Dabbs deserves the credit of being the only one to introduce these valuable auxiliaries to the photographic art. But the same enterprise has ever marked this gallery, and in every department all the modern improvements in taking pictures will be found. Dabbs' photographs enjoy a high reputation throughout the country, and are fully up to the highest standard yet reached in the art. From a tiny miniature up to a cabinet sized portrait the same general excellence prevails in all the pictures turned from this establishment. With the new applications for improving the positions of subjects for photographs, we can safely promise a still more brilliant reputation for Dabbs' gallery.

Runaway Extraordinary—Woman Hurt.

On Wednesday afternoon a pair of horses, attached to a carriage belonging to Mr. Edward Sincowskey, undertaker in Allegheny, took fright while being driven along Ohio street in a funeral procession. The animals became excited at the appearance of the dogs attached to "crazy Mary's" rag cart, and ran furiously up the street. They soon broke the tongue off the carriage, after smashing the vehicle badly, and ran unobstructed to Louis Cesar's hotel, where they ran into a milk wagon. The horses attached to the milk wagon joined in the runaway, and soon the four fugitive animals struck a country wagon at West street. The country horses also ran. A butcher wagon, belonging to Mr. Barber, was run into and smashed, and at the corner of East Lane one of the teams knocked down and ran over Mrs. Wechter and broke her left arm in two places. Almost at the same time they came in contact with a horse and cart standing near, knocked the driver out and tipped over both the cart and the horse. The whole runaway herd became entangled in cart and harness and the seven horses all lay in a heap on the street. Great difficulty was experienced in getting the animals up. The driver of the cart was not much hurt. Mrs. Wechter, besides her broken arm, received several severe bruises. She is doing well.

An Unsatisfactory Way of Paying Debts.

John Dawson, of this city, has hit upon a most unsatisfactory expedient for paying his debts—an expedient entirely unsatisfactory to the creditors concerned, and likely to prove no less so to John himself. Dawson, it seems, owed Charles Mugle, of the West Point House, on Water street, near Ferry, the sum of six dollars for board. On Thursday he brought to Mr. Mugle a check purporting to be drawn by John M. Reed, on the Exchange National Bank of this city for fifty dollars. Dawson told Mr. Mugle that he would let him have the check for forty-four dollars, and so square accounts between them. Mr. M. thought the matter might not be altogether correct, and so would venture no farther than advancing ten dollars on the check, saying he would pay the rest after he had drawn the money. Dawson took the money and went away. Mr. Mugle presented the check at the bank yesterday morning, and was informed that no such a man as Reed had any funds deposited there. So the unfortunate creditor has been gone into the ten dollars deeper, and all for nothing. Mr. "Reed" will undoubtedly have a chance of explaining matters before the Mayor.

Serious Charge Against an Officer.

Thomas Malone, residing in the Diamond, applied yesterday at Alderman Strain's office, and made information against officer Jeremiah Gumbert, of the Independent Police, charging him with aggravated assault and battery. The deponent alleges that on Wednesday night he was in the Rush House, where the defendant does duty, and that the officer, without provocation, attacked him, knocked him down, kicked him in the eye, and beat him violently, after which he thrust him out of the door and knocked him down again upon the pavement. Some men were standing by and took part with the defendant, abusing the prostrate man, as he alleges, and finishing by robbing him of his watch and twenty-three dollars in money. The accused was arrested and held to bail for a further hearing on Monday. We have not yet heard the officer's statement of the case.

To Set Aside a Sale.

H. Burgwin, Esq., in the United States Circuit Court, Friday morning, filed the petition of James B. Angell, of Beaver county, praying that a sale made by D. Sankey, Esq., Collector of Internal Revenue of the Twenty-Fourth Pennsylvania District, be set aside. The Collector seized a coal oil distillery belonging to S. B. Kane & Co., located in Darlington, Beaver county, together with two and a half acres of land, for non-payment of taxes, and exposed the same at public sale. Angell became the purchaser of the property for eight thousand dollars. When the deed was delivered it was discovered that a clear title could not be given and Angell now seeks to have the sale set aside. A rule on the Collector of the District to show cause why the sale should not be set aside, was granted and made returnable on the 6th.

House Painting.

The season of painting is with us, and everywhere the brush is being applied to rejuvenate the soot-stained houses. But our purpose here is not to go into ecstacies over the process of making our city look young, but to say a few words of the house and sign painting establishment of Mr. John T. Gray, No. 51 St. Clair street. By close attention to business and careful execution of all jobs entrusted to him, Mr. Gray has made a high reputation in this community as a practical painter. We can speak with considerable knowledge of his merits and claims upon the public patronage, having executed several large contracts of house painting for us in the most creditable manner, and in a style which gave complete satisfaction. He uses nothing but the best qualities of paints, oils and varnishes, and employs none but experienced workmen. We commend Mr. Gray to the patronage of our readers. See his card elsewhere.

Information Wanted.

An anonymous request for prayer was read in the noon-day prayer meeting, in First Presbyterian Church, Beaver street Allegheny, on Saturday, 23d inst., in behalf of two children orphaned by the recent death of their mother, the sharpest pang of her dying hour having been from the consciousness of her leaving them to the cold charities and deceitful temptations of a wicked world." Earnest prayers were made in their behalf and seem to have been answered by a lady's asking, after the dismission, for the childrens names and residence and volunteering to provide for them.

The sender of the request for prayers will please give the desired information to Oliver McClintock, President, or to Alexander B. Riggs, Secretary, of the Young Men's Christian Association, No. 23 Fifth street.

An Upset.—A wagon belonging to the Pittsburgh Manufacturing Company, and loaded with boxes packed with glass ware, was upset yesterday at the corner of Wood and Water streets. The load was being rapidly driven to the steamboat R. C. Gray, on which it was to be placed and reckless driving in turning the corner caused the upset. The boxes were scattered and some half dozen of them broken open, demolishing most of the contents. The load was removed to the boat on a dray,

A Voice From Allegheny.

MESSRS. EDITORS:—The insolence and ignorance of the Pittsburgh *Commercial* in noticing the movement on the north and west side of the Allegheny for a county seat in this city are about on a par, in commending the village of Bakerstown on the very verge of Butler as the seat of justice for the new county, instead of Allegheny with a population of 50,000 and deserve some rebuke at the hands of those who take pride in our progress and locality. We would therefore ask our merchants and traders if they consider that paper a proper place to bestow their patronage. And whilst it thus insults our city, it does not even understand the geographical limits proposed for the county, which is bounded in the petition referred to by the Allegheny and Ohio to the Beaver and Butler county lines, comprising, from the Allegheny to those counties, an area of 700 or 800 square miles in a compact body, nearly as large as the State of Rhode Island. As your paper has always treated us fairly on this side of the river, we ask a mention of these remarks in the same.

A RESIDENT OF ALLEGHENY.

Iron City Cutlery Company.

The above company has purchased the entire stock of hardware, cutlery and variety goods of Andrew Biggs' well-known headquarters for everything in that line, at No. 3 St. Clair street. The Company has opened out a large stock of the best quality of cutlery, which they intend selling at very reasonable and inducing prices. The best of guns, rifles, pistols, knives, scissors, sporting goods and general goods in variety, will always be found on hand. Stencil cutting, engraving and stamp and seal making attended to in fine mechanical style by the most skillful of artists. Mr. W. H. Bown, a gentleman having large practical experience, and an artisan of no ordinary ability, has been selected as manager of the Company's affairs, and will be found in constant attendance at the store. We cheerfully commend this establishment to the patronage of our readers. The card of the Company appears in another column.

Rolling Mill Started.

The Duquesne Mill, of Messrs. Hallman, Rahm & Co., in the Fifth ward, started five of its furnaces yesterday, the puddlers going to work for seven dollars per ton, the price offered by the proprietors as the compromise rates at the commencement of the strike. The mill has stood idle for over eleven weeks, and its starting may probably be considered as the virtual ending of the strike. We understand that a number of workmen, more than the mill could employ, applied for work yesterday. It is probable that all will soon "accept the situation," and commence again the practice of industry.

Five Children Burned to Death.

The Cleveland *Herald* says:—An employee on the Cleveland and Pittsburgh Railroad says a fire destroyed the residence of Mr. Heintzleman, at Randolph, six miles from Atwater Station, C. & P. R. R., the other evening, and burned five of his children to death. He was informed that some, if not all the male members of the family were absent, leaving only the mother to watch the flames, from which she made a narrow escape, devouring her children. The fire occurred at night—and what a fearful sight it must have been to that mother.

Disorderly Tenants.

Margaret Avery owns No. 5 Foster alley, and occupied part of the house as a residence. John and Ellen Cooper live in the other part of the house as Mrs. Avery's tenants. Yesterday Mrs. Avery came before Alderman Strain and made information against John and Ellen for malicious mischief, alleging that they had done their best to demolish the house, breaking the windows, smashing the doors, &c. The parties were arrested and held for a further hearing.

Steubenville Female Seminary.—Elsewhere we publish the announcement of this eminent institution of learning for the commencement of the summer session. The terms have been reduced about ten per cent. for the coming year, and parents having daughters to educate should examine well the claims of this well managed and model place of female education. For particulars address Rev. C. C. Beatty, LL. D., Superintendent, or Rev. A. M. Reid, A. M., Principal, Steubenville, Ohio.

Badly Frightened.—A man named Jno. Coyle came yesterday to Alderman Strain's office in a state of perturbation, and stated that he had a serious charge to make against John Prawl and John Dunn. After some excited circumlocution he stated that the two men named had met him on Wylie street, and threatened to cut his liver out. He finally signed an information for surety of the peace, and warrants were issued for the defendants.

Twice Fined.—A man named Burns was arrested on Thursday afternoon by officer Hess, of Allegheny, and fined two dollars for drunkenness. He came back shortly afterwards and commenced abusing the officer. His conduct became so disorderly that he was again arrested by officers Hess and Campbell, and taken before the Mayor. His Honor fined him two dollars more, and the prisoner made a prompt disappearance.

The Wager of Battle.—John Fitzpatrick was committed to jail yesterday by Alderman Taylor, on a charge of surety of the peace, preferred by Mary Ann Wright. Mary Ann alleges that the defendant came to her residence in the Fifth ward, and used threatening language towards her, and wound up by earnestly inviting her husband to come out and fight him.

Held for Court.—Ephraim Wiley and Patrick McKenna, charged by John S. Bradley with riot, had a final hearing before the Mayor yesterday, and were held to bail for trial at Court. The defendants, it will be remembered, were parties to the disorderly demonstrations recently made against the Buffalo men employed at Bradley's stove foundry in the Fifth ward.

Alleged Perjury.—L. Purcell came before Alderman Taylor yesterday, and made information against George W. Backofen and John Routh for perjury. He alleges that the defendants both swore in Court on Thursday that they did not assault him, whereas he can prove that they did assault him. Warrants were issued.

Arrested.—On Wednesday afternoon Jacob Hoffman, living on the Beaver turnpike in McClure township, came before Mayor Morrison and made information against Jacob Miller for assault and battery. A warrant was placed in the hands of officer Hess, who yesterday arrested the accused. The prisoner was locked up for a hearing.

Upset.—A load of hay, belonging to Mr. Henry McCully, of Bakerstown, upset yesterday morning at Spang's Rolling Mill, the wagon was broken and the hay all "slopped over" into the mud. Mr. McCully, who was driving, was thrown off and a portion of the hay fell upon him, but he received no serious injury.

Had Her Pocket Picked.—Yesterday morning a German market woman, while selling in the Allegheny market, had her pocket picked of her pocket book containing twenty dollars, all the money she had. We could not learn her name. She had not the least idea as to who the thief was.

Too Drunk.—Two men from the Soda works got too drunk in Allegheny, yesterday. Officers Scott and Campbell found them lying on the pavement in front of the depot, too drunk even to tell their names. They were hauled to the lockup in a wagon.

The Regular Monthly meeting of the 102d Pennsylvania Volunteer Association will be held this evening at the Hall of the Firemen's Association, City building.

Hemlock Bark.—Attention is directed to the advertisement of R. H. Tudor, Ebensburg, Pa., offering hemlock and chestnut oak barks for sale.

CONSOLIDATION!

The Bill as Introduced in the Legislature by Senator Bigham to Consolidate Pittsburgh, Allegheny and the Surrounding Boroughs.

We are indebted to Senator Bigham for a copy of the act to extend the boundaries of the city of Pittsburgh, as introduced by him in the State Senate. The bill will probably pass without material change or amendment. We make the following important extracts:

SECTION 1. *Be it enacted, &c.*, That the boundaries of the city of Pittsburgh shall hereafter be as follows: Beginning on the southern side of the Ohio river, on the line separating the borough of Temperanceville from the township of Chartiers, and by said line southwardly to the line of Union township, Allegheny county, thence eastwardly by a line to be run and marked by a commission, consisting of the recording regulators of the cities of Pittsburgh and Allegheny, and the borough of Birmingham, by the valley of Saw Mill run, the southern lines of the Murray and Knox farms, until it reaches Baldwin township, at Beck's run, about one mile from the mouth of said run; thence by said run to the Monongahela river; thence up said river along the southern shore at low water mark to opposite the dividing line of Wilkins and Peebles townships; thence northwardly across said river and by the dividing line between Wilkins and Penn on the east, and Peebles and Collins on the west, to the north bank of the Allegheny river; thence westwardly by the low water line of said river to a point opposite the upper end of the Six Mile Island; thence by a line due north about one-half mile to a public road in Indiana township; thence westwardly and nearly parallel with the Allegheny river to the intersection of the Butler plank road and turnpike above the village of Etna; thence westwardly to the northeastern corner of McClure township; thence by the line of said township to the Ohio river; thence across said river to low water mark; thence southeastwardly by the low water line of said river, to the borough of Temperanceville, the place of beginning, the said commission to have a discretion in running said line, to vary not exceeding one-third of a mile, in order to adopt the best practicable line which the nature of the ground and the locations of improvements may require, and the inhabitants residing within the same, and their successors forever, are hereby declared to be a body politic and corporate under the name and style of the city of Pittsburgh, capable to sue and be sued, to contract and be contracted with, to acquire hold and possess property, real and personal, and to sell, grant, mortgage, or otherwise dispose of the same, to have a common seal, and to alter the same at pleasure, and to exercise such other powers, and to have such other privileges, as are incident to municipal corporations of like character, not inconsistent with this act.

SEC. 2. That the Sheriff of Allegheny county, in his annual proclamation, prior to the next October election, be required to give notice that each qualified elector residing within the boundaries described in the first section of this act is required to vote a ticket marked on the outside "consolidation," and on the inside "for consolidation" or "against consolidation," which said ballots shall be counted, certified, and returned in the usual manner that returns for county officers are made. *Provided*, That wherever only a portion of any township is included within the boundaries of the contemplated city, then only the electors residing in that portion so included shall be permitted to vote for and against consolidation.

SEC. 3. In case a majority of the qualified electors within the district described in the first section of this act shall, at the said October election, decide in favor of consolidation, then a new election shall be held on the second Tuesday of December next, at the usual places and by the usual officers appointed to hold elections for the election of members of the City Councils, for Mayor, and such other city officers as are in this act named, authorized in the manner following, to wit: the qualified electors residing within the Central district, including the city of Pittsburgh, the borough of Lawrenceville, and the townships of Pitt, Oakland, Peebles, Liberty and Collins, estimated to contain a population of eighty-five thousand, shall elect by a general ticket, fourteen members of the Select Council and thirty-three members of the Common Council, and the qualified electors residing in the northern district, including the city of Allegheny, the boroughs of Manchester, Duquesne and Sharpsburg, the townships of McClure and Reserve, and such portions of Shaler, Indiana and Ross townships as are within said boundaries, estimated to contain a population of fifty-nine thousand, shall elect by general ticket, ten members of the Select Council and twenty members of the Common Council; and that the qualified electors of the Southern district, including the boroughs of Birmingham, East Birmingham, South Pittsburgh, Monongahela, West Pittsburgh, Temperanceville and Mount Washington, and such portions of Union and Lower Saint Clair townships as are within said boundaries, estimated to contain a population of thirty-two thousand, shall elect by general ticket, six members of the Select Council, and fourteen members of the Common Council, and at the same election elect a Mayor and such other city officers as are required by this act, shall be elected by the qualified electors residing within the city limits, which members of Councils shall hold office for two years; the Mayor and other city officers shall hold their places from the first Monday of January succeeding their election until the first Monday in January two years thereafter or until their successors are elected and qualified to act.

SEC. 4. That the annual election for members of the City Councils and of all municipal and ward officers in said city shall hereafter be held on the second Tuesday of October in each year, and that the first election of such Councils and officers after that of December next, as directed in the third section, shall be held on the second Tuesday of October, 1869, and that the officers conducting State and county elections shall receive and count the votes for said Councils and officers, and make returns thereof, at such time and place and in such manner as is now required for said municipal election. *Provided*, That the Select and Common Councils, shall, at a date prior to the first day of July, 1869, provide, by ordinance, for dividing and arranging the territory of said city into wards, in such manner as to make not more than thirty wards. *And provided further*, That in July, 1869, and in July of every fourth year thereafter, the representatives of each ward, in the Select and Common Councils, shall be apportioned in the manner following, to-wit: A commission to consist of the Mayor of the city, the Presidents of the Select and Common Councils of said city, to which commission, the city assessors shall have made, under oath, a true and exact return of all resident taxables in each ward or precinct, which commission shall then divide the whole number of resident taxables in the city by thirty, the quotient shall be the ratio for members of the select council in each ward subject to the following conditions:

First, Each ward shall have at least one member of the select council. Second, Each ward having not less than two-thirds of the ratio of taxables in excess of said ratio, shall be entitled to an additional member, but no ward shall have more than two members of the select council.

The said commission shall also divide the whole number of resident taxables by seventy, and the quotient shall be the ratio for members of the common council in each ward, subject to the following conditions:

First, Each ward shall have at least two members of the common council.

Second, That each ward shall have one member of the common council for each full ratio and for any fractional part in excess thereof, not less than two-thirds of said ratio.

SEC. 5. That the first election held after said apportionment, the members of select councils elected in the First, Fourth and Seventh, and every third succeeding ward, throughout the whole number, shall be elected and hold their offices for the term of three years; that the members elected for the Second, Fifth and Eighth, and every third succeeding ward, throughout the whole number shall be elected and hold their offices for the term of two years: that the members elected for the Third, Sixth, Ninth, and every third succeeding ward, throughout the whole number, shall be elected and hold their offices for one year; in case more than one member to a ward, each is to be counted as the actual number of members; that all elections for regular terms thereafter shall be for three years each; that any vacancies which may occur shall be filled by election for the unexpired portion of such terms.

SEC. 6. Any person, who, at the time of any election of municipal officers is a qualified voter under the laws of the State for county officers, and who shall have actually resided within the limits of the city not less than six months, and within the limits of the election district in which he offers to vote, not less than ten days immediately preceding the day of election, and shall have been assessed for city taxes during the current year and shall have paid said taxes in full, shall be deemed a qualified voter for municipal officers; and, to preserve the purity of elections, it shall be the duty of the city Treasurer to deliver to the judges and inspectors of election in each election precinct, a list of all persons assessed therein for city taxes during the current year, and to note on said list the names of all such persons as shall have paid said taxes in full, on or before the first day of October next, preceding the day of election; said list shall be attested by the Treasurer and be delivered before the opening of the polls and shall be received by said judges and inspectors as sufficient evidence that the persons whose names are so noted have paid said taxes.

SEC. 7. That the corporate authority of the municipal corporation, organized under this act shall be vested in one principal officer, to be styled the mayor; in two boards of councilmen, to be denominated the select council and the common council, together with such other officers as are in this act named, or as may be lawfully created under its authority; and said corporation shall have the general powers and privileges, and be subject to the rules and restrictions granted and prescribed in the succeeding sections of this act.

First, To inquire into and ascertain what amount of municipal debts and other liabilities, and of annual interest chargable thereon is owing by each of the several cities, boroughs and townships which are included within the boundaries of the city incorporated by this act.

Second, To inquire into and ascertain what municipal property, real and personal, including lands, lots, public squares, common grounds, wharves or landings, water works, market houses, city halls, poor houses, fire engine houses, and all other public buildings, excepting school houses, is owned or held by each of the cities, boroughs and townships aforesaid, to determine the value thereof, and the average amount of the net annual revenue derived therefrom in determining the value of such property, the commission shall take into consideration the net revenue derived therefrom, or the amount in cash which would probably be obtained for it if offered for sale at public auction, or both, as it may deem most equitable and just to all parties interested.

Third, The commission shall have power to demand from each and any of the municipal officers of said cities, boroughs and townships, having the custody of books and papers relating to municipal debts or liabilities, or of municipal property or records relating thereto, or revenue derived therefrom, accurate statements thereof; and it shall be the duty of said municipal officers to prepare and submit such statements, certifying under oath that the same are correct to the best of their knowledge and belief. The commission may summon any municipal officers or other persons to appear before them and testify under oath concerning municipal debts or property, or other matters which it may deem necessary to the proper performance of its duties; and it shall have power to administer oaths to any person so called to appear before them.

Fourth. When the value of the property owned and held by each of the cities, boroughs and townships aforesaid shall have been determined, the amount owned by each shall then be substracted from the amount of the ascertained indebtedness of each respectively, and the remainder shall be deemed and taken as the amount of the separate indebtedness owing by each in excess of the value of property owned and held by each; the excess of separate indebtedness of each city, borough and township, when so determined, shall be compared with the assessed value of taxable property in each, respectively, according to the latest valuations of assessors, as the same may appear in the official records of the county commissioner, and the ratio or proportion between said indebtedness and said value of property in cash shall be determined and when such proportion shall have been determined the commission shall fix upon and set forth such a rate of special tax to be separately levied and collected in each of the former cities, boroughs and townships, as shall be sufficient to pay and discharge all the separate debts and liabilities of each in some reasonable and stated period of time, not exceeding in any case a period of twenty years.

Fifth. It shall be the duty of the commission to prepare and to submit in the District Court of Allegheny county a full report of all its proceedings, and a statement in detail of the debts owing and of the property owned by each of the said cities, boroughs and townships, and of such rates of special tax to be separately levied and collected in each as they may deem most equitable and just to all parties interested.

SEC. 30. The qualified voters of the city shall elect bi-ennially a Mayor, City Controller, City Treasurer, Police Judge, Police Clerk, City Attorney, City Marshal, City Civil Engineer and City Fire Engineer, who shall hold their offices for two years; each of said officers shall keep an office in some convenient place in the city to be provided by the City Councils, and shall each continue in office two years.

SEC. 42. The councils shall, by ordinance, establish a board of public works which shall consist of the mayor of the city, the civil engineer and three citizens elected by the qualified voters to serve for three years, &c., &c.

SEC. 52. That a commission consisting of of three disinterested freeholders of Allegheny county, not residing within the corporate limits of the city, as described in the first section of this act, nor owners of real estate or other taxable property therein, shall be appointed by the district court of Allegheny county, who, after being duly sworn by a judge of said court, to well and faithfully perform all the duties enjoined upon them by this section, shall proceed to perform the duties hereinafter stated, namely:

SEC. 53. The District Court shall, within ten days after receiving the report of the commission, made in pursuance of the next preceding section appoint a day, and cause due public notice thereof to be given when any of the municipal authorities or taxpayers, who may be interested in the rate or appointment of the special taxation set forth in said report, may appear in court, and be heard by council thereon, whereupon, after a due hearing of the parties interested, the court shall determine and decree the rate of special tax, which shall thereafter be separately levied on all taxable property, and collected in each of the several cities, boroughs and townships aforesaid, to be applied in paying the interest and the principal of the excess of indebtedness, owing at that time; be each of said cities, boroughs and townships, respectively and to no other purpose whatever, until the same shall have been fully paid and discharged.

SEC. 54. The city corporation, created by this act, shall obtain from the district court, authenticated copies of the report of the commission, made in pursuance of the section of this act, and of the decree of the court thereon, within thirty days after said decree is made, and shall as soon as practicable thereafter, pass an ordinance for carrying the same into effect according to its full tenor and meaning in all respects, whereby the City Corporation shall assume and become liable for all the municipal debts and liabilities of each of the former corporations or townships comprised within its limits and all rights of property of every kind and description, excepting school houses and lots which were vested in any of said former corporations or townships, shall thereafter be deemed and held to be vested in the corporation created by this act, no rights or liabilities, either in favor or against either of said corporations existing at the time of this act taking effect, and no suit of any kind shall be in any manner affected by such change, but the same shall stand or progress as if no such change had been made; provided, that nothing herein contained shall be construed to empower said corporation to sell, mortgage, lease, or in any manner alienate any lands which were held by any of said former corporations, as public squares, common grounds or river shore landings, but such lands shall be held for general public use in the same manner as before the passage of this act.

SEC. 55. That the act of April 16th, 1858, entitled "An act to establish high and low water lines in the Allegheny, Monongahela and Ohio rivers, in the vicinity of Pittsburgh, in Allegheny county," be and the same is hereby revived, so far as the same is necessary for the establishing of high and low water lines, in said rivers, wherever within the limits of the city of Pittsburgh, as described in the first section of this act, such lines have not heretofore been established under the act which is hereby revived, and that the commissioners heretofore appointed under said act and by whom the high and low water lines were established, such other persons as may be appointed by the district court of said county in case of the death, refusal, or inability to serve of any of said commissioners are hereby authorized to proceed, without unnecessary delay, to the performance of the duties required by said act in the establishment of high and low water lines wherever they have not already been established within the extended limits of said city, in the same manner, and with like effect as provided in said act.

SEC. 56. That in order to remove any doubt or misconstruction as to the true intent and meaning of said act in relation to the rights of parties owning property bounded by said rivers, or either of them, within the limits wherein said high and low water line have been or may be established, it shall be understood that an inclined plane from the high to the low water line on each side or shore of said rivers shall form the true boundary or shore of the same, and that it shall be unlawful for any person or persons to erect or maintain any building or other structure on the shore of any of said rivers outside of or nearer to the water than said high water line, or to place any obstructions on any of said inclined planes which may hinder or endanger the safe navigation or obstruct the free flowing of the waters of said rivers or either of them; provided, that nothing herein before contained shall be construed to apply to any structure heretofore lawfully erected by any incorporated bridge or navigation company.

The Sections which we have omitted refer to sewerage, police regulations, councils, &c., &c., but as our copy was not received till after 1 o'clock this morning, we cannot publish any more of the important document in this issue.

THE GREAT AWAKENING.

The past year has been a remarkable one for advancing the cause of religion and the educational interests connected with the different denominations. It is well known the Methodists celebrated their Centenary Jubilee last year. Two things were kept prominently before the Church—the promotion of revivals and the work of church extension and an increase of educational facilities, especially for theological training. The statistics of the Church, which are carefully collected from year to year, showed at the opening of the year 1866, that the aggregate membership of the body was about nine hundred and seventy thousand. Great desire was felt to wind up the grand centenary year with the round count of one million of members. Accordingly the jubilee year opened with special devotional services, which were continued more or less during a portion of the year, so that by the time the annual statistics were made up, the roll of Church membership reached over *one million*. Besides the liberal endowment and founding of universities and colleges, elegant churches have been erected; embarrassing debts on churches have been liquidated; many edifices have been remodelled, and in numerous instances in this city and elsewhere, provision has been made for the erection of parsonages worthy of the Church and the age.

The same spirit, we are pleased to note, prevails among all the denominations, both in church extension and educational matters. The rapid wealth acquired by many Christian men during the prosperous years of the war, and by the development of the riches hidden in the bowels of the earth, has been lavishly poured out by them, for the erection of church edifices of the most modern build, and in providing funds to elevate institutions of learning to a position of giving the highest grade of educational culture. Men of wealth in these cities have given tens of thousands towards the erection of church structures that have put their churches in a position of usefulness and influence, which their meagre membership and indifferent places of worship, have heretofore operated seriously against them in various ways.

Not only have these Christian men given liberally towards the erection of suitable houses of God, but they have adopted the noble course of bestowing their gifts for the endowment of institutions, or specialities in theological, scientific, and other departments in them, while they live, without waiting for the custom heretofore in vogue, of bequeathing at their demise legacies for this purpose, which, instead of reaching their legitimate place, as designed by the humane benefactors, have, in many instances been frittered away by the avariciousness of relations, under the counsel of unprincipled executors and legal advisers. All these things are progressive steps under the Spirit of God, and have largely helped to mold the happy state of things now witnessed here and broadcast over the country.

Some days since reference was made to the religious awakening in these cities, since the holidays, especially to the work inaugurated by the Young Men's Christian Association, since their re-organization, by the establishment, first, of a Noon-day Union Prayer Meeting, at the Methodist Church, on Fifth street, near Smithfield; then of similar meetings at Rev. J. B. CLARK's (United Presbyterian) church, on Stockton avenue, Rev. ELLIOT SWIFT's (First Presbyterian) on Beaver street, both in Allegheny, and last the one recently commenced at Trinity M. E. Church, Ninth ward, and also the gracious work in progress at the Third Presbyterian Church, Rev. HERRICK JOHNSON, pastor, and one or two churches of other denominations.

The special services at the Third Church still continue with marked prosperity, the congregation co operating with their pastor as heartily as ever, and practically fulfilling the maxim of not "growing weary in well-doing." We understand at the next communion season, quite a number of persons will be received into church fellowship, so that the result we presume will round up fully one hundred accessions.

The interest in the First Baptist Church, under the pastoral care of Rev. J. S. DICKERSON, is still maintained. This is to be expected from the indefatigable labors of the pastor, and the favorable surroundings of this congregation, compared with their condition some time ago. From all quarters reports reach us that the noon-day prayer meeting services in both cities, are steadily increasing in interest, and their influence is widely extending beyond the immediate circle of the places where they are held, not only into the different parts of the city, but the blessed influence is being carried to other places contiguous, and other communities are being stirred up to adopt the same course of action.

The good work is going on in most of the Presbyterian churches, and for aught we know, every one has been touched with the same revival power. The meetings commenced in DR. HOWARD's church at the "Week of Prayer" have been exerting a fine influence upon that congregation, and notwithstanding the feeble health of the Doctor of late, the work goes on by the noble co-operation of that working congregation, who have been so well trained under his tutorage. While there has not been such an outburst of God's power at the First Presbyterian Church (REV. S. F. SCOVIL's,) yet there has been a steady flow of revival power, resulting in the accession of over thirty since the new year began. DR. JACOBUS' church, (Central Presbyterian) has been also favored with the Divine influence, and the accessions will probably reach twenty five. We hope to ascertain more definitely the condition of the other churches of this denomination.

Some of the United Presbyterian churches last year had signal manifestations of God's power, resulting in large accessions. Since the new year began we have not learned the extent of the work in their churches, more than that the Second Church, Allegheny, REV. DR. J. B. CLARK, pastor, which has been for years in a prosperous condition, had an accession of nearly fifty members some weeks ago. This church now numbers over seven hundred members. Such has been the prosperity of this church that it is found necessary to make improvements that a greater number may be accommodated.

The Methodist churches, known heretofore as Methodist Protestant, on Fifth street, REV. ALEX. CLARK pastor, on Pennsylvania Avenue, under the pastoral care of REV. J. ROBINSON, and the one in Birmingham, REV. MR. SUTTON, pastor, have been favored with great prosperity, with an aggregate of about two hundred conversions.

The Episcopal churches in both cities, we understand, have had special services during the Lenten season, now near its close, which have had a marked effect upon those who have observed this order of church discipline. With the special Choral services, noble missionary work in Sunday school labor, helping the poor of our cities, and the social and useful advantages growing out of the Church Guild Association, we are feeling in this community the power this body is exerting in our midst, under the admirable and faithful services, and example, of the Right Rev. Bishop KERFOOT, who has shown himself to be a "workman that needeth not to be ashamed." We congratulate this influential body upon the accession of such an able minister at the head of its ecclesiastical interests in this diocese.

It is so generally conceded that the Methodists, who have just celebrated their "Centenary Jubilee," have always used extraordinary means to promote the spirit of revival, that it is quite unnecessary to attempt to establish the fact. The feeling has always existed in the Methodist Episcopal Church, that whatever course other denominations might pursue, right and proper enough, to augment their number, and increase the spirituality of their members, her ministers and people have always felt that such means were successful. The special services in the tented grove, as a general thing, were afterwards, as the nights lengthened, followed by the protracted meeting at each charge, often running through months of night services. God owned these consecutive services by displays of saving power, and multitudes were gathered into her communion from year to year, so that the handful in New York in 1766, has grown (embracing the Southern Church and other minor branches) to full two millions. And it is no discredit to other denominations that they use virtually the same means now, as the Methodists have always done, by adopting the "Anxious seat" for the "Mourners bench," the Conference meeting," for the "Love Feast," and that laymen have a place to work and a field to cultivate, never before entered to the same extent, and that women have attained rights to speak and pray in public, who are worthy to follow the footsteps of illustrious names of their sex, who thrilled the hearts of thousands in England and this country many years ago.

The Pittsburgh District, under Rev. S. P. WOOLF, Presiding Elder, who is a kind of sub-bishop over a certain territory embracing parts of Allegheny county and Butler, has been favored with a wonderful work within its bounds. Not less than six to seven hundred have been converted and added to the Church since the holidays, mainly in this city and contiguous points! The same prosperity has attended the ministers in the bounds of the Allegheny district, Rev. John WILLIAMS, Presiding Elder. In three charges alone, about five hundred have been added to the Church, namely, at Salem, Ohio, under the ministrations of Rev. Dr. BAIRD, formerly of this city; at Sewickley, Rev. W. N. LOCKE, pastor, and at Manchester, Rev. H. HOLLINGSHEAD, pastor.

With a view to some details, we group together in the briefest manner possible, the results in the Methodist Episcopal churches in the two cities, and immediate vicinity. In the latter part of January, the Rev. S. F. JONES, pastor of Liberty street charge, commenced special services, which were without apparent fruit for a week or so. However the work broke out in the Sunday School, especially among the older scholars, including some teachers. Notwithstanding the pastor was transferred to New England, the official members carried on the meetings, until the new pastor, Rev. W. H. LOCKE, took charge some nights since. Perhaps two scores have been converted, and fully twenty-five have been added to the church. Smithfield Street Church, Rev. Dr. C. A. HOLMES, pastor, has had considerable prosperity, though special services were only held for a short time, owing in part to the fact that Doctor HOLMES had been called away to the Presidency of the Iowa Wesleyan University. Rev. E. B. SNYDER, pastor of Christ Church, had quite an interesting revival, resulting in the conversion of thirty persons and twenty accessions. For sometime, since his removal to North Avenue station, in Allegheny, meetings have been held almost every night under the direction of the young men of the charge, which have been attended with success.

Quite a gracious time took place in Trinity Church, Ninth ward, resulting in perhaps forty conversions, under the direction of Rev. W. B. WATKINS, pastor. The Wesley chapel congregation, on Liberty street, Fifth ward, Rev. L. McGUIRE, pastor, has been greatly blessed with revival power. The German church has had an interesting work, resulting in over a score of accessions. The Pennsylvania avenue church, Rev. J. A. MILLER, pastor, and Ross street church, Rev. M. L. WEEKLY, pastor, we have no report from. The new Centenary church, on Centre avenue, under the pastoral care of Rev. S. BURT, has had nearly two score accessions.

Reports from Beaver street, Rev. J. A. SWANEY, pastor, represent great prosperity, spiritual and otherwise, without a large accession. The South Common charge, under the pastorate of Rev. W. LYNCH, last year had a great work of grace. To what extent the special services held since the new year opened have been successful, we have not learned. Since the new pastor of North Avenue, Rev. E. B. SNYDER, has been in charge, say two weeks, quite a good work has taken place. Fully twenty-five have been added to the church. The German Church, corner of West Common and Ohio street, Rev. Mr. SCHNEIDER paster, has had over thirty conversions.

The work at the skirts of the two cities at some points has been quite prosperous. At East Liberty, Rev. W. P. TURNER, pastor, about one score of accessions. The Birmingham Church, Rev. R. L. MILLER, pastor, over twenty additions. Sewickley had a remarkable work under Rev. W. H. LOCKE, pastor, who has just closed a three years term, and is now in charge of Liberty street in this city. Full one hundred persons were converted and added to the church. Mount Washington, Rev. J. DERMITT, had forty accessions. Bradley Chapel, West Pittsburgh, in charge of Revs. W. LONG and J. SHAFFER, about thirty-five additions. Temperanceville, Rev. J. E. M'GAW, pastor, has had great prosperity. Lawrenceville, J. W. BAKER, pastor, and South Pittsburgh, Rev. C. W. SMITH, pastor, no report. Perhaps the greatest revival in and about these cities was at the Manchester Church, recently erected, adjoining the line of Allegheny, under the pastorate of Rev. J. HOLLINGSHEAD. Over two hundred joined at the meeting in question. During the space of three months nearly three hundred united.

The Reformed Presbyterian church, Rev. Dr. JOHN DOUGLAS pastor, has had a career of prosperity for years. Additions are constantly taking place, so that the church is in a vigorous and healthy condition under the Doctor's pastorate. The Lutheran church, though without a regular pastor, is prospering to a good extent. Plymouth church, Rev. HENRY D. MOORE pastor, has been holding special services for several weeks, during which time the interest has been great and much has been accomplished. In a word, the churches generally are active and aggressive.

In view of the interest this question has upon the public mind, we think no apology is needed for the great length of this article.

A HEAVY COAL FIELD.

In noticing the projected railroad from Kittanning to the Philadelphia and Erie road in Cameron county, we omitted any mention of the enormous deposits of bituminous coal through which it will pass in Jefferson county. This coal field lies mainly in the eastern part of that county, on every side, we believe, of Reynoldsville. The principal vein is twelve feet in thickness, and in some plases more, and extends over a very considerable area. In quality this coal is similar to that of the Connelsville vein—soft, rich in bitumen, and easily mined. It is true that this road traverses a coal region through almost every mile of its length; but this Reynoldsville deposit, like that near Connellsville, is extraordinary. As it is a descending grade all the way from Jefferson county to this city, we see no reason why this coal may not be brought here profitably.

THE *Miltonian* urges the Republicans to make the Hon. JAMES POLLOCK their candidate for the Supreme bench. He has been honorably distinguished both in the legal profession and public life. For six years he was a member of Congress. Then he was President Judge. Afterwards he was Governor. Finally he was Director of the Mint. Upon his retirement from that office he resumed practice as a lawyer at Philadelphia, though he still claims a residence at Milton. All these important places he filled with credit to himself, and usefulness to the public. If the candidate shall be taken from the midland portion of the Commonwealth a more suitable one could hardly be found. But this county will claim the honor for her eminent and accomplished citizen, Judge WILLIAMS.

PITTSBURGH, May 19, 1866.

Messrs. Hostetter & Smith:

GENTLEMEN—During a visit to the West last fall, I contracted chills and fever, which brought me to my bed, and finally terminated in typhoid fever, and confined me to my room for several months, during which time I was physically so prostrated that I almost despaired of ever recovering my health having almost entirely lost my appetite for days, not being able to eat a morsel, added to which I was distressed with a reeling sensation in my head, and passed many sleepless nights—all from debility caused by my prostrate condition, brought about by fever. At this stage of my condition a friend recommended me to use your celebrated Stomach Bitters, but being morally opposed to the use of stimulants in any form, I at first declined, but afterwards yielded my prejudices, and, after taking the medicine for several weeks, my appetite returned, and with it I am rapidly regaining my former strength and vigor. My sleep (from the loss of which I have suffered much,) has never been better than it is now, and the reeling sensation (before alluded to) has entirely left me. My bowels, which were much constipated and irregular, are now quite natural, and in fact, I am glad to say that I feel myself a new man, and tender you this testimonial of my appreciation of your valuable preparation, in order that others, suffering as I have, may avail themselves of its virtues, which prejudice kept me from enjoying for so long a period. I may also add that my physician, after seeing the beneficial effect of your Bitters on me, recommended that I use them regularly.

Yours, very respectfully,
E. BOURNE,
No. 45 Market street.

THE INDIANS AND THE WHITE PINE.

Although long known to the aborigines of America, Dr. George W. Swett, of Boston, has brought into shape for convenient use, a most valuable preparation called POLAND'S WHITE PINE COMPOUND, which for a number of years has given great satisfaction in the cure of all those ailments dependent on an inflamed or irritated condition of the mucous membranes of the animal organism. *For gravel, diabetes, dropsy, chronic bronchitis, nasal catarrh, constipation*, when depending on a debilitated state of the intestines, it is one of the most valuable discoveries recently added to pharmaceutical medicine. It is likewise a most valuable compound for diseases of the kidneys and bladder generally, as any one can satisfy himself upon a single trial. Every one knows the healing virtue of the white pine for sores and ulcers, but Dr. Swett has gone to work and prepared from the sweet inside bark of that valuable tree a compound that will meet every indication where the pine would be valuable.

It is confidently recommended for the following ailments:
Diabetes in young or middle aged people;
Diabetes in old people;
Stoppage of the Urine;
The same difficulty in children during the night;
Gravel, Kidney Trouble in old people;
Ulcerated Kidneys, Ulcerated Bladder;

LIGHTNING ROD WORKS.

MUNSON'S COPPER TUBULAR

LIGHTNING RODS.

With Spiral Flanges.

This Rod has the power to carry off as much electricity as twenty common iron rods; in other words is equal to a solid bar of iron thirty inches in circumference. It does not rust; it cannot get out of order. It has received the first premiums at very many State and District Fairs and Institutes. It was never beaten in any contest. It has been recommended by several hundred Professors in the best Schools and Colleges in the United States, as the best Rod ever invented. In this list we may name Philotus Dean, Professor of Natural Sciences, Pittsburgh High School; George Woods, President Western University of Pennsylvania, and I. C. Pershing, President Pittsburgh Female College.

Among the hundreds of buildings upon which this Rod was erected within the past year in this vicinity we may mention the Locomotive Works; Banner Cotton Mill; Allegheny Flouring Mills; First Presbyterian Church of Allegheny; Second Ward School House, Pittsburgh; City Poor House, Pittsburgh; St. Bridget's Church, Pittsburgh, &c., &c. In the surrounding country many of these Rods have been erected on residences or public buildings. It may be examined on the Lutheran Church at Johnstown; on the Disciples Church at New Castle; on Dr. Reed's residence Hickory; on residences of Esquire Janey, Lawrenceville; E. M. Fulton, McKeesport; Wm. Ewing Frankfort Springs; S. P. & J. N. Large, Elizabethtown; Col. Wm. Miller, Fort Perry; P. Baker, Neville Island; J. Lockhart, Canonsburg; L. W. Lewis, Sharpsburg; J. F. Muller, Freedom, Friend Buxton, Bakerstown, &c. &c. &c. This Rod is adopted by all who want Lightning Rods wherever it is introduced, and in an experience of ten years we have never known an instance of damage to a building protected by it, while many instances occur every year of damage to buildings upon which iron rods have been erected; so noticeable has this fact become in communities where attention is called to the subject, that we are almost daily called on to take down the iron rods and erect the Munson Copper Rod.

Price, 30 cents per foot and $3 for points on each rod. Our workmen will go to any part of the country without extra charge.

SATURDAY, MARCH 30, 1867.

Masculine Fashions.

It is as difficult to keep track of the fashions for men as of those for women, and those interested in the important matter should receive such assistance as may be available. Hence we quote the following extracts from a New York paper:

From the crown of a man's hat to the sole of his foot there is a complete change this year in the style of his dress. English fashions seem to prevail to a great extent, and we find the hat, the boot, the coat, the watch-guard and cane are directly patterned after or imported from "the dear old mother country." There is better taste displayed this year in a gentleman's dress than heretofore, with one or two slight exceptions. We are glad to notice this improvement, for the tendency of Americans is to run to extremes.

COATS AND PANTS.

The English walking sack coat, made of both rough and smooth goods, falling gracefully to the hips, well be worn this spring upon the street as a business coat. The London frock coat, single and double-breasted, made of English meltons, smoothed faced goods, and cassimeres, the lapelles and collars of medium size, will be extensively worn as a spring coat, both for the street and the drawing room. The favorite colors are claret, brown, dahlia, and the blues. Vests will be made of the same material as the coats, while the pants will usually be lighter. A claret colored coat and vest, with light cassimere pants, not only makes a fashionable suit, but it is also in very good taste. Numbers of gentlemen are ordering these for the spring season. For an evening dress, or opera coat, the plain black swallow-tail is fashionable with vests of the same material. Silk velvet vests are out of fashion. The tendency now is to have evening suits as plain as possible, without even a velvet collar to the coat. The vests for evening wear are to be cut low, with only three buttons. Pants must be black and plain to match. There will be no facing of lapelles with silk or velvet, and save on wedding occasions the coat should be lined with black.

For pants, the light cassimeres, with hairline stripes and a wide silk band, are in great demand. These are brown and white, blue and white, black and white—in fact, of all colors. Shepherd's plaid and mixed Scotch cassimeres will be fashionable. All the stripes and plaids are exceedingly small and delicate, anything larger than this is "loud," and not fashionable. Pants will continue to be made small in the leg, much to the satisfaction of those who are able to display more developed calves.

Spring overcoats will be made of drabs, and light mixtures, steel-mixed and brown cloths.

Prices this year range about the same as last for custom made goods. A single-breasted paletot, made of tricoe or pique cassimeres, can be had from twenty-seven to forty-two dollars; vests, made of cassimeres, from seven to eleven dollars; pants, from nine to twenty dollars.

HATS AND CAPS.

For silk hats there is the bell crown low English hat. There is considerable crown to the brim, and they are much wider than they have been for years. Low crowns are worn altogether in preference to high ones. The Henrietta hat is a droop brim, fancy banded, half round top felt hat, with the colors of the famous yacht inside. The Derby hat is always in demand; it has a round top and is stiff brimmed. The Jerome or English Walton hat—a low crowned felt, stiff brimmed—will be much worn this spring. As a general thing caps are not in fashion, there being no call for them. The Parepa cap has what is called a melon top, pulls over in front, and carries a droop visor. It is made of the same cloth which gentlemen wear for their pants. In other styles of hats we have the soft dashes, the croquets, made of soft felt, the katy dids, Ristori and Richelieu.

BOOTS AND SHOES.

Button boots with box toes, and box-toed Congress boots with imitation buttons are in the height of the mode. It may be well to explain that the box-toe is the pointed English toe, with the inner sole worked up at the toe of the shoe or boot so as to lift up the upper leather, preserving its form and keeping it from the foot. These are all made of the best French calf-skin, and can be had from fourteen to fifteen dollars. Boots are made in the same manner and of the same material. Patent leather is out of fashion. French calf being worn upon all occasions. It should be remembered that Glaze's box-toed shoes of all kinds are just in the height of fashion, and will be universally worn.

High-topped boots for horseback riding, of light French calf-skin, with Glaze's box-toe, worth twenty-five dollars a pair, will be fashionable for Central Park, the Catskills, and summer resorts.

SHIRTS AND COLLARS.

White linen shirts with narrow stripes of of blue, black and red stitched upon the edge of the cuffs, collars and each side of the central box plait of the bosom are quite fashionable. Bosoms heavily embroidered will be worn for dress shirts, and also bosoms which are perfectly plain, with three small islet holes for the smallest kind of diamond or pearl or gold shirt studs.

The English folded black necktie is to be worn upon all occasions as the dress necktie in place of white. Windsor black lace ties and black grenadine ties will be worn. Sleeve buttons, watch guards, etc., all partake of the sporting character, and are made of oxodized silver and gilt metal. They are very fashionable.

A Man Found Drowned.

The Montrose *Republican* says.—On the evening preceeding the last Thanksgiving Day, as the express on the Del. Lack. and Western Railroad was coming up, an intoxicated man went aboard at Nicholson. The conducter threatened to put him off, but on promising to leave at Hopbottom he was permitted to remain. After leaving Hopbottom he was found still aboard. The train was stopped and he was put off. I can not give you the orthography of the man's name. He was an Irishman, residing at Susquehanna. The next morning a satchel was found on the track, which was subsequently identified as the property of the ejected man. But no trace of the man could be found. On Sunday, the 7th inst., two men discovered something lying in deep water, in the mill-pond above Hopbottom. They suspected it to be the missing man. On examination it proved to be so. An inquest was held. No signs of violence appeared on the body. The railroad at that point runs near the stream; the natural conclusion is that, perhaps, attracted by the light on the other side of the valley, in his drunken maneuvers, he descended the railroad embankment, and fell into the water, which proved to be his winter's grave.

A Funny Divorce Case.

A peculiar divorce case is on the tapis in Dayton, Ohio. The parties have only been married about three months. It was a regular love match. They had known each other for years, and were apparently living very happily. The husband went East a while ago, and was absent a couple of weeks. To his intense surprise, he found on his return that his wife had taken preliminary steps to obtain a divorce. On his attempt to remonstrate, she showed him a letter that had arrived in his absence, and she had opened and read. It was a high flown love letter from some "friend," and written in a way that looked suspiciously like an answer. In vain he protested he knew nothing about it; she utterly refused to believe in him or trust him again, and is determined to go on with the divorce, and will break up their once happy home rather than trust her husband's word.

Accident.

A most distressing accident occurred on the railroad running to the Diamond Mines, at Pine Brook, Luzerne county, on Saturday last. A boy named Beon Shriber, aged about nine years, in company with an older brother, was going to the above mines, and on arriving at Pine Brook, in jumping off the cars, he was caught in some way and drawn under them, the wheels passing over him and killing him instantly. He was horribly mangled. He was a son of Christ Shriber, of Scranton, who had just removed his family from New York, their household goods being still unpacked in the house. It was a most heart rending scene when the poor little fellow was brought home, his mother going almost wild with grief as the mangled, almost unrecognizable remains were laid before her.

A Stormy March.

The oldest inhabitants have no recollection of any previous March having been as stormy as the present month. Since its advent there has been a succession of storms, snowing one day and raining another, and hailing by way of variety. There have been seven days of rainy weather, five days upon which snow fell and three or four of alternate cloud and sunshine. The snow storms generally have been such as are looked for in midwinter, and are not expected in the first spring month. The lowest marking of the thermometer was 21 degrees, on the morning of the 18th; the highest 55 degrees, on the afternoon of the 1st.

Good Reasons.

A colored preacher, named Hamilton, of Bridgewater or Fallston, Pa., was recently arrested and committed to jail in Beaver county, for marrying a black man to a white girl. After the clergyman had been some time in prison, the highly-intelligent justice who committed him made three discoveries: Firstly, that the statutes attached no penalty to marry people of any color to one another; secondly, that the preacher never had married the couple in question; thirdly, that they never had been married at all.

Allegheny Drunks.—John Thompson and Wm. Swaney, the latter from Sewickley, were arrested on Federal street, Allegheny, yesterday morning, at one o'clock, by officer Frank Campbell, for being drunk and disorderly. Yesterday morning they were fined one dollar and costs each. Officers Poland and Frank Campbell also arrested John Hostetter and Wm. Mitchell for drunkenness. The prisoners were fined and sent away.

A White Swan, measuring six feet ten inches from tip to tip of wings and four feet from bill to point of tail, and weighing over thirty pounds, was shot by Mr. James Clarly, of Fawcett's landing, near the head of Brunot's Island, on Thursday afternoon. It was one of two which he discovered, and brought it down with a rifle at a distance of about one hundred yards. A flock of fifteen was seen in that vicinity a few days previous.

Before Hon. James P. Sterrett.

This Court met Friday morning at the usual hour, nine o'clock, and proceeded with jury trials.

THE LUTZ-KEEP CASE.

The case of the Commonwealth vs. Matthew Keep, indicted for misdemeanor, in neglecting his duty as Constable, and extorting money by color of his office, taken up on Thursday afternoon, was resumed. John Lutz, also a constable, is the real prosecutor, and although not called as a witness in the trial, it seems he was before the Grand Jury in the case. In the early part of 1866 they both did business with Alderman Humbert, in the First ward, Lutz devoting most of his time and attention to instituting prosecutions against parties for selling liquor on Sunday, his efforts to a great extent resulting in the better observance of the law in that respect, particularly in the locality adjoining Allegheny city known as Troy Hill, and also considerably to his pecuniary advantage in the way of fees and moity of fines lawfully accorded to him. It so happened that the close professional friendship (if we may so call it) of Lutz and Keep was not of long duration, and gave place first to mutual enmity, followed by recrimination, and out of this state of affairs arose a number of prosecutions by Keep against Lutz for compounding felony, extortion, &c., and by Lutz against Keep for misdemeanor in office, extortion, &c. There are also prosecutions for barratry against Lutz by different parties, arising out of his activity as informer. The first prosecution was, we believe, against Lutz, for compounding a felony, a certain party having been arrested for larceny and subsequently set at liberty, not on the ground that he was considered innocent, but, as Keep alleges, through the efforts of Lutz, who, he claimed, obtained fifty dollars from the accused as the "consideration" for his release. Of this amount Keep confessed having received ten dollars. The indictment for compounding this felony has been disposed of, the jury finding a sort of Scotch verdict. They did not say "not proven," but from their verdict the inference is drawn that the belief was entertained that defendant and prosecutor were equally culpable. The verdict was "not guilty, each party to pay one-half the costs." [The exercise of this power of dividing costs has been the means of doing exact justice in a host of cases, and its adaptability has long since been fully demonstrated. Thanks to Colonel Foster, whose single efforts, while a member of the Legislature, accomplished the enactment of the law.] The case now under consideration, and just now the legitimate province of the Court reporter to dilate upon, is the next in the series, Lutz changing places with Keep as prosecutor. Yesterday's GAZETTE contained the full statement of the case for the Commonwealth, (so to speak,) with the evidence upon which it was based, viz: That Keep, as constable, failed to return Patrick and Bridget Murphy, residing at the Point, for selling liquor without license, and received money from Bridget for omitting so to do. Bridget swore that she paid him money, and Patrick swore that he saw her give it to him. Keep's returns for six months of 1866 were also placed in evidence.

For the defence evidence was adduced, yesterday forenoon, flatly contradicting Bridget, and twelve or fourteen witnesses were called who testified they would not believe her or her husband on oath where they were interested, some making a slight difference in favor of Patrick, and others stating that they would not believe him under any circumstances. In "boiling down" the different legal phases of the case, the real question for the jury to consider, said the Court, was whether or not Keep received money under color of his office as constable. If the jury believed the evidence for the prosecution, he was guilty of extortion. The jury retired shortly before noon, and at the afternoon session of the Court, at about four o'clock, returned a verdict of "guilty." With the sentence in this case, the curtain will fall upon the second scene in the Keep-Lutz extravaganza.

A RESERVED QUESTION.

Christian Keplar appeared to answer an indictment for malicious mischief, found at the instance of Caroline Smithbauer. He was represented by J. J. Siebeneck, Esq., who is very likely to get him out of the trouble. It appeared that he was a subtenant of the prosecutrix, on Centre avenue, occupying the lower front portions of the house, she the upper part, and the malicious mischief was alleged to consist in the defendant pulling down a "to let" which had been placed on the front of the premises. The question was raised by Mr. Siebeneck as to the right of the prosecutrix to keep up the "to let." It was shown that there was no specification on the placard as to whether the defendant's apartment or that of the prosecutrix was for rent, and that nothing appeared upon it other than the simple words "to let." It was shown that the defendant was much annoyed by persons calling to "inquire within," and it was to get rid of this annoyance that he tore down the paper. The Court was of the opinion that it was a mere suffrage, and notwithstanding the custom there was no law for such placing of "to lets," hence the defendant committed no wrong. By consent, the jury was withdrawn.

STOLE A WATCH.

Frederick Umberger was arraigned for the larceny of a watch from George Triess, in Shaler township. A clear case of guilt was made out, the jury convicted, and the prisoner was remanded for sentence.

DRUGGISTS INDICTED.

J. C. Mattern, druggist, of the Second ward, was called to answer an indictment for selling liquor without license. James Brown, constable, testified that in making his return of liquor dealers he had included the defendent. He knew nothing further about the matter, and the District Attorney had no other testimony. A conviction was not claimed, and as to the question of costs, the Court did not think they should be put upon the returning officer, and it did not appear that the defendant was in any fault. The jury accordingly found a verdict of "not guilty, county to pay the costs."

There being another like indictment against Mr. Mattern, and also two against Simon Johnson, also druggist in the Second ward, and nothing to be shown against either further than the fact that they were "returned," the District Attorney, with leave of Court, entered a *nolle pros* on the three indictments.

STEALING BY WHOLESALE.

Benjamin Timmons, whose proclivity for picking up things not his own he has demonstrated on more than one occasion, was arraigned upon an indictment charging him the larceny of a barrel of molasses from the establishment of Fetzer & Armstrong, corner of First and Market streets, in the city. It was shown that on a certain evening in January last Timmons employed Charles Parsons, a colored man, with an "express wagon," to haul a barrel of molasses from the locality stated to the grocery store of Jesse Brush, in the Diamond, where Timmons disposed of it for ten dollars. The prisoner then returned for a second barrel, and whilst in the act of taking it away was arrested by officers Moon and Wrigley. The taking was proved to have been felonious, the jury convicted, and the court sentenced Timmons to undergo three years imprisonment in the Penitentiary.

AGAIN ON TRIAL.

Theodore Parker Lyman, employed as barkeeper last fall at the Saint Nicholas Hotel, in the Second Ward, was put upon his trial for the larceny of an overcoat from the dyeing and scouring establishment of George Massey, on the night after the last general election. Lyman was tried with a man named Evans, at the last term, for the larceny of several articles of clothing from Massey's but acquitted through a failure to identify the clothing found in their possession. On the same day they were acquitted, Lyman was re-arrested, an overcoat found in his possession at the time of his arrest, and claimed by him, having been identified after the trial by E. D. Brush, who had left it at Massey's to be scoured. Defense put in two pleas, "not guilty" and "former trial and acquittal." For the prosecution it was shown that Massey could not identify, at the Mayor's office, or on the trial, the overcoat subsequently claimed by Brush; that at the hearing Lyman claimed the coat as belonging to him, and after his acquittal went to the Mayor's office to obtain it; but having been identified by Brush, he was arrested a second time for larceny committed on the information of Brush, and hence his second trial. The pleas in the case giving the defendant's counsel the conclusion of the argument, Col. Duff was followed in his address to the jury by R. S. Morrison, Esq., who first discanted in glowing language upon the right of trial by jury—a right for which King Charles was beheaded. Referring to the main feature of the case, he said that the defendant having been acquitted by a jury, it was insult to the men who composed it to place him upon his second trial. Mr. M. then sailed into Massey, the scourer, placing him in the light of an unwilling witness, and as having come prepared to swear a falsehood. The whole question in the case was a very simple one, scarcely requiring elucidation, viz: Whether Lyman had been tried and acquitted for the larceny of the coat which he was now charged with stealing. Massey having had any property in it. The jury, after brief deliberation, returned a verdict of "guilty." The prisoner was remanded for sentence.

NEW JURY ON MONDAY.

Court adjourned at 4:30, and the jurors in attendance were discharged from further service, a new panel having been summoned for the next two weeks, commencing on Monday.

Sheriff's Sales.—Sheriff Cluley makes use of a considerable portion of our space to-day, by advertising a number of sales of real estate to come off shortly under his auspices. The attention of our readers is directed to the advertisement, as many of the properties advertised are very choice, and we presume will be knocked down at reasonable prices.

Verdict Set Aside.—In the case of Rowan and wife vs. the Pittsburgh and Cleveland Railroad Company, in which the jury rendered a verdict in favor of plaintiffs for $3,200 damages, the District Court on Thursday set the verdict aside and awarded a new trial. The motion was argued on behalf of the Railroad Company by S. Scoyer, Jr., Esq.

Ward's Bread.—For cheap bread in hard times, buy Ward's. It is in the largest loaves and is made from the best flour. The millions should buy it, for Ward gives more weight and better bread than any person in the city. Ask your grocer for it. If he don't keep it, he should, for everybody will want it.

Thanks.—Our esteemed friend, Dr. Geo. H. Keyser, has our thanks for the current number of the University Journal of Medicine and Surgery, a Philadelphia publication of much merit.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, March 29, 1867.

The following are the New York stock quotations for to-day: Gold, 134⅝; 1881, bonds, 109; Five Twenties, old, 109¼; Five Twenties, '65, 108¼; do new, 107¾; Seven Thirties, 105¾. Michigan Southern Railroad, 77; Cleveland and Pittsburgh, 79¾; Pittsburgh, Fort Wayne & Chicago, 96¾; Erie, 58¾; Chicago and Northwestern, 35¼; do preferred, 64¾; New York Central, 106¾; Chicago and Rock Island, 97¾.

—On the 1st of May about $24,000,000 becomes payable by the Treasurer, on amount of coupons. Probably $10,000,000 of the account is due to foreign holders of five-twenties. It would, however, be unsafe to conclude that the whole of this amount will go abroad, as usually a considerable portion of coupons in Europe is reinvested in bonds. It is not improbable that $16,000,000 or $18,000,000 out of the $24,000,000, will remain to supply the market.

—The Comptroller of the Currency will receive in a few days the quarterly reports from the national banks, and it is expected that the reports will indicate an unusually healthy condition. This is due to the increased precautions against fraud which have been resorted to lately, the principal of which is the system of frequent examinations into the affairs of the banks by agents of the comptroller, through whom he receives accurate reports of their condition. The late defalcations in a number of banks have been the cause of more close inspections by the agents and the issue of more stringent regulations from the office of the comptroller.

—The bill of Mr. Anthony, introduced in the Senate, proposing to fix the 1st of June as the day for putting the Bankrupt Law into operation, is superfluous, since this, it is claimed, has already been done by the act. The real object of the Secretary, it would seem, is not so much designed to fix the time as to insure the passage of the accompanying proviso, which validates all transfers of property prior to that date.

—It is reported that in view of the prospective embarrassments of the Treasury from the falling off in the internal revenue, and from other causes, no contraction of the currency will be shown in the April statement of the public debt.

—Mr. Griswold, of New York, made another futile effort on Wednesday to have a resolution considered prohibiting the redemption of more than four millions of the currency per month. Congress is manifestly not in a temper to meddle with the finances at this session.

—A dispatch from Washington says the receipts of the Government of the United States for the year 1866, apart from money borrowed, were nearly fifty millions of dollars larger than the receipts of any previous year. The total receipts were $523,977,389, and total expenditures $323,086,215—excess of receipts $200,891,174, while in 1865 we spent 620 millions more than we received. Part of the excess of receipts in 1866 has been used in payment of the indebtedness of the government, but much of it is massed up in the various depositors of the nation, reserved as a basis for specie payment. When the last fiscal year commenced there was in the hands of the sub-treasurers only $858,000; when the year ended there was on hand over $130,000,000, much of it in gold. Of the $520,000,000 received, $180,000,000 were paid as duties on articles imported from abroad, and nearly $300,000,000 from internal revenue taxes.

—The Bureau of statistics at Washington gives the total value of domestic exports from the United States during the year 1866, at $172,061,129. Of this sum the principal amount was on cotton, the exports of which footed up $51,150,318. Gold bullion, $7,227,728, silver bullion, $3,895,037; gold coin, $8,558,866; silver coin, $1,974,566; manufactures of gold and silver, $28,093. The breadstuffs figure up $20,379,104. The export value of oils amounted to $17,240,573, nearly all of which was petroleum. Provisions amounted to $14,252,471, of which $5,635,670 was cheese alone. Tobacco, $11,842,297. Agricultural impliments, $596,024. Coal, $1,051,250.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, March 29, 1867.

CRUDE—The market was again considerably excited to-day, and the sales in the aggregate, were large, and that, too, at a still further advance. That there is no solid basis for this apparent "flurry" is generally conceded, the advices from the east as well as from Europe, not being calculated to justify any advance, and the impression prevails that the market will "let down" just about as suddenly as it "let up." The secret of the whole matter lies in the fact that quite a number of parties, both in and out of the oil business, have had tanks constructed, and are now anxious to fill them; and, in addition to this, some of our refiners are anxious to lay in a big supply at present prices, and this, as a matter of course, has a strong tendency to stiffen and excite the market. We have sales of some fifteen thousand barrels reported as follows: 1000 for April, at 7; 800 same delivery and same price; 1000 to be delivered on first water, at 7¼; 2500 do do at 7¼; 1800 do do at 7¼; 1000 do do at 7¼; 2000, to be delivered between May 1st, and June 15th, seller's option, at 7¼, and 5000 for April, seller's option, on private terms—supposed to be 7¼. As a matter of course, the excitement here has produced a corresponding result at Oil City, telegrams from that point reporting considerable excitement, and higher figures.

There was not, so far as we could learn, a single transaction in bonded oil to-day, which is owing to the fact that refiners also have become excited and refuse to sell at anything like the prices offered—and, indeed, some of the brokers tell us that it is almost impossible to get "refusals." We did hear of one refiner who mustered courage enough to make a plump offer to sell standard white for April, at 24 cts, at works; but, as yet, there are no buyers at this figure. For immediate delivery in Philadelphia, there are offers to buy at 28 to 28½—but no sellers. As will be seen from the above, the market is in a very unsettled condition, and one or two things must take place, and that, too, very soon—Refined advance or Crude decline.

Chicago Cattle Market.

CHICAGO, March 27.—The fresh receipts of beef cattle to-day at the Union Stock Yards are 1007 head. Entered sales, 642 head, at prices ranging from $5,37½ to 6,50 for common cows and stock steers, and from $6,75 to 7,62½ for good to choice shipping beeves. The market is fairly active under a brisk shipping demand, and prices are steady at yesterday's quotations. Buyers for Pittsburgh, Buffalo, Detroit and other Eastern points are in the yards in considerable force, and quite an active business is being transacted in the best grades. For common and medium lots there is but little inquiry. Stock cattle are, however, in fair request, and sell freely at from $5,25 to 5,75 for light to good smooth lots.

PITTSBURGH METAL AND BLOOM MARKET—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, March 29, 1867.

The operations in metal have again been insignificant during the past week, and the market continues quiet and dull but unchanged. The demand continues, as it has been for some time past, very light, being restricted almost wholly to supplying immediate wants, and the transactions, in the aggregate, were very light, and not worth reporting—indeed, the only sale reported was one hundred tons Muck Bar at $76, cash. It is thought, however, that the majority of the mills will start up next week, the puddlers agreeing to go to work at the reduction, and, if so, there will doubtless be an active demand for Metal and Blooms, and in our next report we shall probably be able to present a large list of sales.

The stock of manufactured iron and nails is pretty well reduced, very nearly exhausted, and at present, we presume, some of our iron houses are not in condition to fill orders. The mills once in full blast again, orders will no doubt come in more freely, and Pittsburgh will be much stronger, financially, and present a more cheerful appearance.

New York Dry Goods Market.

NEW YORK, March 29.—The demand for cotton goods are more animated and prices generally pretty steady and firm. Most of the operators in New England have notified the mills that they would cease work on the first proximo unless the hours of labor were reduced, but the mill owners concluded to stop for thirty days rather than submit to such terms. Owing to these circumstances the market was more steady and firm. Standard Sheetings command 20½@21. Shirtings; 17 for Androscoggin. Bleached Muslins, 29@30 for Z. RIVER NEWS.

The river continues to recede slowly at this point with but eight feet in the channel by the Allegheny marks last evening. The weather yesterday was clear and pleasant, and very favorable for out-door operations, but business at the wharf, we regret to state, was dull as ever, freights for all points being scarce.

Capt. Hugh McKelvy, an old steamboatman, but who for some years past has been engaged in the oil business, has been appointed and confirmed postmaster of Allegheny City. Capt. McKelvy, we have no doubt, will make an energetic, accommodating and efficient postmaster, and we commend the good sense of "Andy" in making such a judicious appointment.

The Luella, Capt. Haslett, will positively leave for the Upper Missouri gold regions to-day, and passengers and shippers can rely on this. This boat was constructed especially for the mountain trade, and will go clear through. The Leclaire, Captain Saint, is also announced for the gold regions, and she, too, is in every way adapted for making a through trip.

The Ezra Porter arrived from Cincinnati about noon yesterday, with a fair trip. That the Porter can make weekly trips to Cincinnati is now established peradventure, since she left here last Saturday afternoon. There were no other arrivals aside from the regular packets. The Kate Putnam, from Louisville, was due last night.

It is a little remarkable, that there is not, from all that we can learn, a single new steamboat under contract between Wheeling Brownsville, including both of these points. Here, there is not a single boat in process of construction to be seen anywhere, the Great Republic, Dubuque and towboat Boaz closing the list. This must of necessity throw a large number of skilled mechanics out of employment, and the worst feature about the whole matter is the fact that there are no indications apparent at present of any immediate improvement. Now is the time for any of our Southern or Western steamboatmen who contemplate building to come this way.

The R. C. Gray got off for Cincinnati and Louisville last night with a very fair trip. Capt. Anderson intends to keep the Gray permanently in the Pittsburgh and Louisville trade.

The Maggie Hays, Capt. D. L. Hendrickson, is the regular Saturday packet for Cincinnati, leaving promptly at noon. The Maggie is a swift and commodious boat, and has superior accommations for passengers.

The Bellevernon, Capt. Darragh, Jr., is filling up steadily for St. Louis and Missouri River, and will leave on Tuesday or Wednesday next. This boat is almost new, having made but two or three trips, and is staunch, reliable and commodious, and has superior accommodations for passengers. The new side-wheel Dubuque, Capt. Parker is filling up rapidly, and will leave for the Upper Mississippi this day week.

The Cincinnati *Commercial*, of Thursday, says: The mammoth low pressure Richmond made a trial trip yesterday, at Jeffersonville. We regret to learn that her machinery did not work satisfactory. Capt. R. S. Neal being a practical engineer and machinist, will soon make it work to a charm, however. All new boats experience more or less difficulty in first turning over their wheels.

Capt. Neal had better send for some of our Pittsburgh engine builders, who not only know how to put engines together, but also to run them. The Richmond, to realize the claims made by the Louisville papers, will have to travel pretty fast, and this she cannot do if her engines do not work well.

A stamp is imposed upon every manifest for Custom-house entry or clearance of the cargo of any ship, vessel or steamer for a foreign port. The amount of this tax in each case depends upon the registered tunnage of the vessel. If a vessel clears in ballast and has no cargo whatever, no stamp is necessary, but if she has any, however small the amount, a stamp should be used.

A bill has passed both branches of the Louisiana Legislature incorporating the New Orleans Lightening and Wrecking Company, giving the exclusive right to lighten vessels over the bars at the mouth of the Mississippi River, for fourteen years.

The case of F. H. Rogers & Bro. against the Louisville and Portland Canal Company was called in the United States Circuit Court at Cincinnati on Wednesday, and will probably occupy the attention of that Court for several days. In May, 1866, the company contracted to tow four barges of hay through the canal, and as the petitioner alleges, through the neglect of the company or its agents, one of the barges was sunk. The suit is brought to recover $7,500, the value of the hay and barge.

THE LOUISVILLE CANAL.—The House has passed the joint resolution directing and authorizing the secretary of War to cause surveys, with plans estimates of cost, to be made by an officer of engineers, for a ship canal around the falls of the Ohio river, on the Indiana side thereof, of suitable location and dimensions for military, naval and commercial purposes; and also to cause such officer to estimate the expense of completing the Louisville and Portland Canal, on the Kentucky side of said falls, according to the plan on which the said Canal Company is now progressing with said work; and that the expense of the surveys and estimates be defrayed from the sums appropriated in the acts of June 23, 1866, and March 2, 1867, for the examination and surveys relating to the improvement of harbors and rivers on the Northern lakes. The Senate will, undoubtedly, pass the resolution.

The towboats Sam Roberts and H. C. Wilson, arrived at Louisville on Wednesday with coal, and left the same day for Pittsburgh with a tow of empty barges.

The Memphis *Appeal*, a reconstructed journal, gets off the following:

The Robert E. Lee made the trip from Vicksburgh to this port in thirty hours. They set down pegs for the Republic to jump at. The run from Helena was made in six hours. Capt. Richardson says he will shortly make weekly trips with her. Answers to correspondents.—"Sam"—the Great Republic did not jump the bridge at Cincinnati. She "duv" under it. "Osceola"—The Republic will not make four round trips per month from Pittsburgh to New Orleans. At least not soon. "Bunce"—1. Yes, the Lee is the finest steamer that ever came to our landing, "or any other man's." 2. She is not for sale, neither would she suit the Pittsburgh trade.

Proposals for the purchase of this Land Scrip, addressed to "The Board of Commissioners of Agricultural Land Scrip," will be received at the Surveyor General Office, at Harrisburg, until 12 o'clock M.,

On Wednesday, April 10, 1867.

This land may be located in any State or Territory by the holders of the scrip upon any of the unappropriated lands (except mineral lands) of the United States, which may be subject to sale at private entry. Each piece of scrip represents a quarter section of one hundred and sixty acres, is issued in blank, and will be transferable, without endorsement or formal assignment. The Scrip will be issued immediately on the payment of the money to the surveyor General. On all bids for a less quantity than 40,000 acres, one-third of the purchase money must be paid within ten days, and the remaining two-thirds within thirty days after notification of acceptance of the bid or bids by the Board of Commissioners.
